Oracle, MySQL

### **Design**

Illustrator

### **IDEs**

Visual Studio, Eclipse, Sublime, Atom

### **Languages**

English (fluent) – TOEFL 94points

Bulgarian (native)

Russian (intermediate)

## EXPERIENCE

**Projects** – <http://icodefish.com/portfolio.html>

- Kid's party center "**Comics**" – Web application tailored for kids and their parents. The project was developed for local company that opened their first party center for kids. Everything from design to the back-end was done by me.
- **Invoice system** – This project was initially developed for an accountant that needed a simple way to issue invoices for customers from another country. It started as a Java application then became a Web-based app which could be accessed from every device all of the time.
- Telemedicine system "**REHAPP**" – This project was developed for the Regional Hospital in Horsens. The goal of the project was to design, implement and test a telemedicine system that will allow therapist and other health professionals to monitor and guide their patients during rehabilitation.

### **Work**

- **Tech Support/Consultant** *June 2006 – July 2010*  
"**Max Mira**" – Computer Company  
My work mainly consisted of dealing with the new clients of the company. That would include managing various tasks ranging from building custom computers to troubleshooting issues with PCs.
- **Internship** *Aug 2012 – Jan 2013*  
"**ESMIS**" Bulgaria Mainly worked on the "Inspire" project (The Infrastructure for Spatial Information in Europe), the main goal of the project is to offer internet-accessible information of technologies and permissions to tie European geospatial information to producers and users.
